Internal Quality Assurance Cell

Annual Report 2021-'22

Two meetings of the IQAC were convened on 14/06/2021 and 12/01/2022. The opening of the institution based on the orders from the authorities on 1/10/2021 and functioning of the institution before and after this date was constantly monitored and the IQAC was involved in providing crucial support systems.

1. Feedback collection and analysis

Feedback collection from all students, faculty and stakeholders was an ongoing process which required specific changes in with the special conditions the institution was going through. The collection of feedback and the outcomes identified provided proper direction to the teaching learning process and support systems. The online activities were adjusted based on the process.

2. Conduct of seminars/workshops

The IQAC encouraged the conduct of activities and programmes in online and offline mode in continuation of the previous academic year. Programmes organised include,
